Date: December 20, 2017

We offer the best white single ply roofing system in the industry. Our system offers UV protection, potentially lowering your energy use. After analyzing your roof condition we have determined that a portion of your roof will need total replacement while the major portion qualifies for our retrofit roofing system where we can install the new system over the existing roof for a substantial savings over total tear off.

For installation of new white single ply roofing system we propose the following:

Tear Off:

Tear off existing roof to decking
Install 2" insulation
Install white single ply membrane
Install all necessary mewtal and flashings

Retrofit:

Prepare substrate for installation
Install 2" insulation
Install white single ply membrane
Install all necessary mewtal and flashings

Total Cost: Ninety Two thousand dollars and 00/100----- (\$92,000.00)
