RE: 334 E. Xenia Dr. Underground Storage Tank Record Request

Mr. Keller,

This letter is a follow up to my letter from June 4, 2020, which indicated that the fire department had no records indicating any existing or previously removed underground storage tanks located at 334 E. Xenia Dr. Fairborn, OH 45324.

Evidence has since been discovered that indicates that there were underground fuel storage tanks located at this address. The tanks were removed on May 23, 1988, according to the building inspection record found. Attached is a copy of that record.

Sincerely,

Adam D. Howard
Battalion Chief of Life Safety
