Subject: 6927-6929 N Main St.

I have spoken with the property owners of the property located at 6927-6929 N. Main Street regarding their desire to split the lot so each lot consists of one office building.

After reviewing the zoning and lot layout, a split of the lot would not hinder the realistic function of this site and both lots would continue to meet the zoning requirements set forth in the township's Zoning Resolution. Harrison Township does not object to the lot being split into two separate lots.
